Ten minutes isn't a long time when you're an intergalactic super hero. But it's all the time you need to find out a little more about being a super adoptive parent, and you could find yourself saving a child simply by providing the kind of stability and routine that helps them to thrive. You won't need magical powers, just the empathy and understanding that pushes all the right buttons. Are you ready to take your family life to the next level?

22 adoption services in the North West have come together to form Adoption 22, your one source of information about the facts and the route to adopting. We'll give you honest advice, and all the help and support you need to bring a child into your family. It's kind of like saving the planet, one child at a time. Visit our website for more information.

Children are for life too. Adopt one, and change yours for good. You'll find yourself running through the whole range of parenting phrases. And the whole range of emotions, too. As in all family life, there will be triumphs, and there will be set-backs. But you'll know from day one that it's all worth it. And that one day, so will the child or children you adopt.

Here in the North West 22 councils have come together to create Adoption 22 and give you the chance to be a parent, and to give a child a better chance in life. All kinds of people make great parents, so don't think adopting can't apply to you. Find out more about bringing a warm, loving life into your home. Visit our website.
