

 **British Nuclear Group**  
*Intelligent nuclear clean-up*

Invisible to the naked eye:

the biggest career opportunity you'll ever encounter.

As a seasoned engineer, you'll instantly realise the massive impact that the smallest subject matter of life could have on your career.

As our nuclear industry enters a new phase, the challenges continue to grow: and as the organisation that pioneered the industry here in the UK, we're well placed to rise to them. Having secured the multi-billion pound contracts to decommission Magnox generators nationwide, we're already ahead of schedule, making headway faster and more cost-efficiently than even we could have predicted, all while putting safety first and foremost.

For you, these are big opportunities to build a career at the forefront of a groundbreaking industry with the indisputable industry leaders.

### Site Engineering Section Head

£00,000 - £00,000

Ref: XX/1234X/06

In this team leader role, you'll oversee the resources that manage our plant and project streams. With significant team management experience in a similar or construction/demolition environment, you'll be professionally qualified, have a NEBOSH certificate and be an accredited CDM Planning Supervisor and Principle Contractor 1.

### Lead Design Engineer

£00,000 - £00,000

Ref: XX/1234X/06

Preparing concept and feasibility drawings, you'll provide the design focus and technical integration, ensure compliance, monitor progress and answer technical queries. A Chartered Engineer with a good knowledge of health and safety legislation, you'll have experience of leading a team.

*In promoting equal opportunities, British Nuclear Group welcomes applications from all sections of the community. We select people according to their abilities and our needs.*

### Site Engineers

£00,000 - £01,000

Ref: XX/1234X/06

Controlling and supervising project work for the Project Lead, you'll review and approve contractors and sub-contractors to ensure we meet all obligations. Professionally qualified and with experience gained on industrial plant, you'll have managed contracts and delivered projects and have an aptitude for problem solving.

**Benefits include competitive salary, generous 29-day holiday entitlement plus bank holidays, sick pay scheme and employee bonus scheme.**

**Please apply by sending your CV and covering letter to the Personnel Department, British Nuclear Group, Magnox Ltd, Bradwell Reactor Site, Bradwell-on-Sea, Southminster, Essex CMO 7HP or email [bradwell.personnel@magnox.co.uk](mailto:bradwell.personnel@magnox.co.uk)**

In the beginning, there was the end.

Having ceased generating electricity in 2002, Bradwell has now defuelled and is entering complete decommissioning.

For us here at BNG, the end of the lives of Magnox power stations mark the beginning of fresh challenge and opportunity. We're evolving and investing, innovating and putting safety first – just as we've always done. Cleaning-up our nuclear legacy nationwide is a £ multi-billion industry, and one we're well-placed to deliver in.

For you, it's the beginning of career-building challenge, of working with and learning from industry professionals at the top of their game, of making your mark in an industry that's bigger than anything you might have experienced before.

Magnox power stations are at the end of their working life.

**For you, it's only the beginning.**

Decommissioning Bradwell nuclear power station marks the beginning of a new era for us. Previously industry pioneers, we're turning our vast expertise to the safe, cost-effective clean-up of our nuclear legacy. Creating more firsts and innovations and solutions and opportunities along the way. For you, this is the beginning: of career-building challenge, of developing in the company of an award-winning team and of realising all the potential that comes with working at the forefront.

Our award-winning team are already ahead of schedule and well within budget. Clear evidence that you'll be in the company of some of the world's most experienced nuclear professionals, supported and encouraged by an organisation that pioneered the nuclear industry here in the UK.
