Our people

“Lloyds TSB is one of the UK's top banks so it was an obvious choice. The Business Specialist Program is well structured – it's given me a broad knowledge of the business through placements, hands-on experience and lots of training”.

I've learnt to manage my time more effectively, I'm confident in my skills and I have the knowledge to think on my feet. I've relished the responsibility and never felt out of my depth thanks to the buddy system.

The support is excellent because everybody's keen to help you achieve your goals. And everybody comes to work with a positive attitude. It's fantastic to see people go out of their way to help each other achieve the team target.

I have seen my own ideas grow into fruition and it's nice to leave a permanent stamp in an area after you have left.

I'd like to develop my relationship manager skills for a few more years and then build up to a fresh challenge.

I'd love to start managing people, and with so many different business units and jobs across the group, there are plenty of opportunities.
